

Mobilising resources

Key messages:

1. Ensure health is a **PRIORITY** in (higher level) national development plans, emphasizing health as an investment
2. Develop high quality, convincing, comprehensive **HEALTH PLANS**, including:
 - a. Stakeholder support and ownership
 - b. Costing
 - c. Monitoring and evaluation with a focus/intent on results
 - d. Proper communication, in particular taking into account MoF perspectives

Mobilizing resources

Key messages (continued):

3.PERFORMANCE and ACCOUNTABILITY mechanisms in place

4.Conduct EFFECTIVE DIALOGUE with all stakeholders, in particular civil society organizations and Parliament

5.Ensure DIPLOMACY, ADVOCACY and LEADERSHIP skills in the MoH

Conclusion:

The MoH is not (and should not be) alone in this process of negotiating and mobilizing resources for national health strategies, but should certainly be leading such effort.
