

Towards one country-led monitoring and
evaluation platform for national health
strategies

Dr Were Samuel
Kenya

Linkage between government and health sector specific planning processes and strategies

Sector strategies monitoring mechanisms

Policy document	Frequency	Output
Kenya Health Policy Framework	Once (end term) (15 years	Policy performance analysis report
National Health sector Strategic Plan	Twice (midterm and end term)	Mid-term and end term reports
Annual Operational Plans	Five times (quarterly and annually)	Quarterly and annual performance reportsd

What do we jointly monitor annually?

- Health Service Delivery

- Sector investments

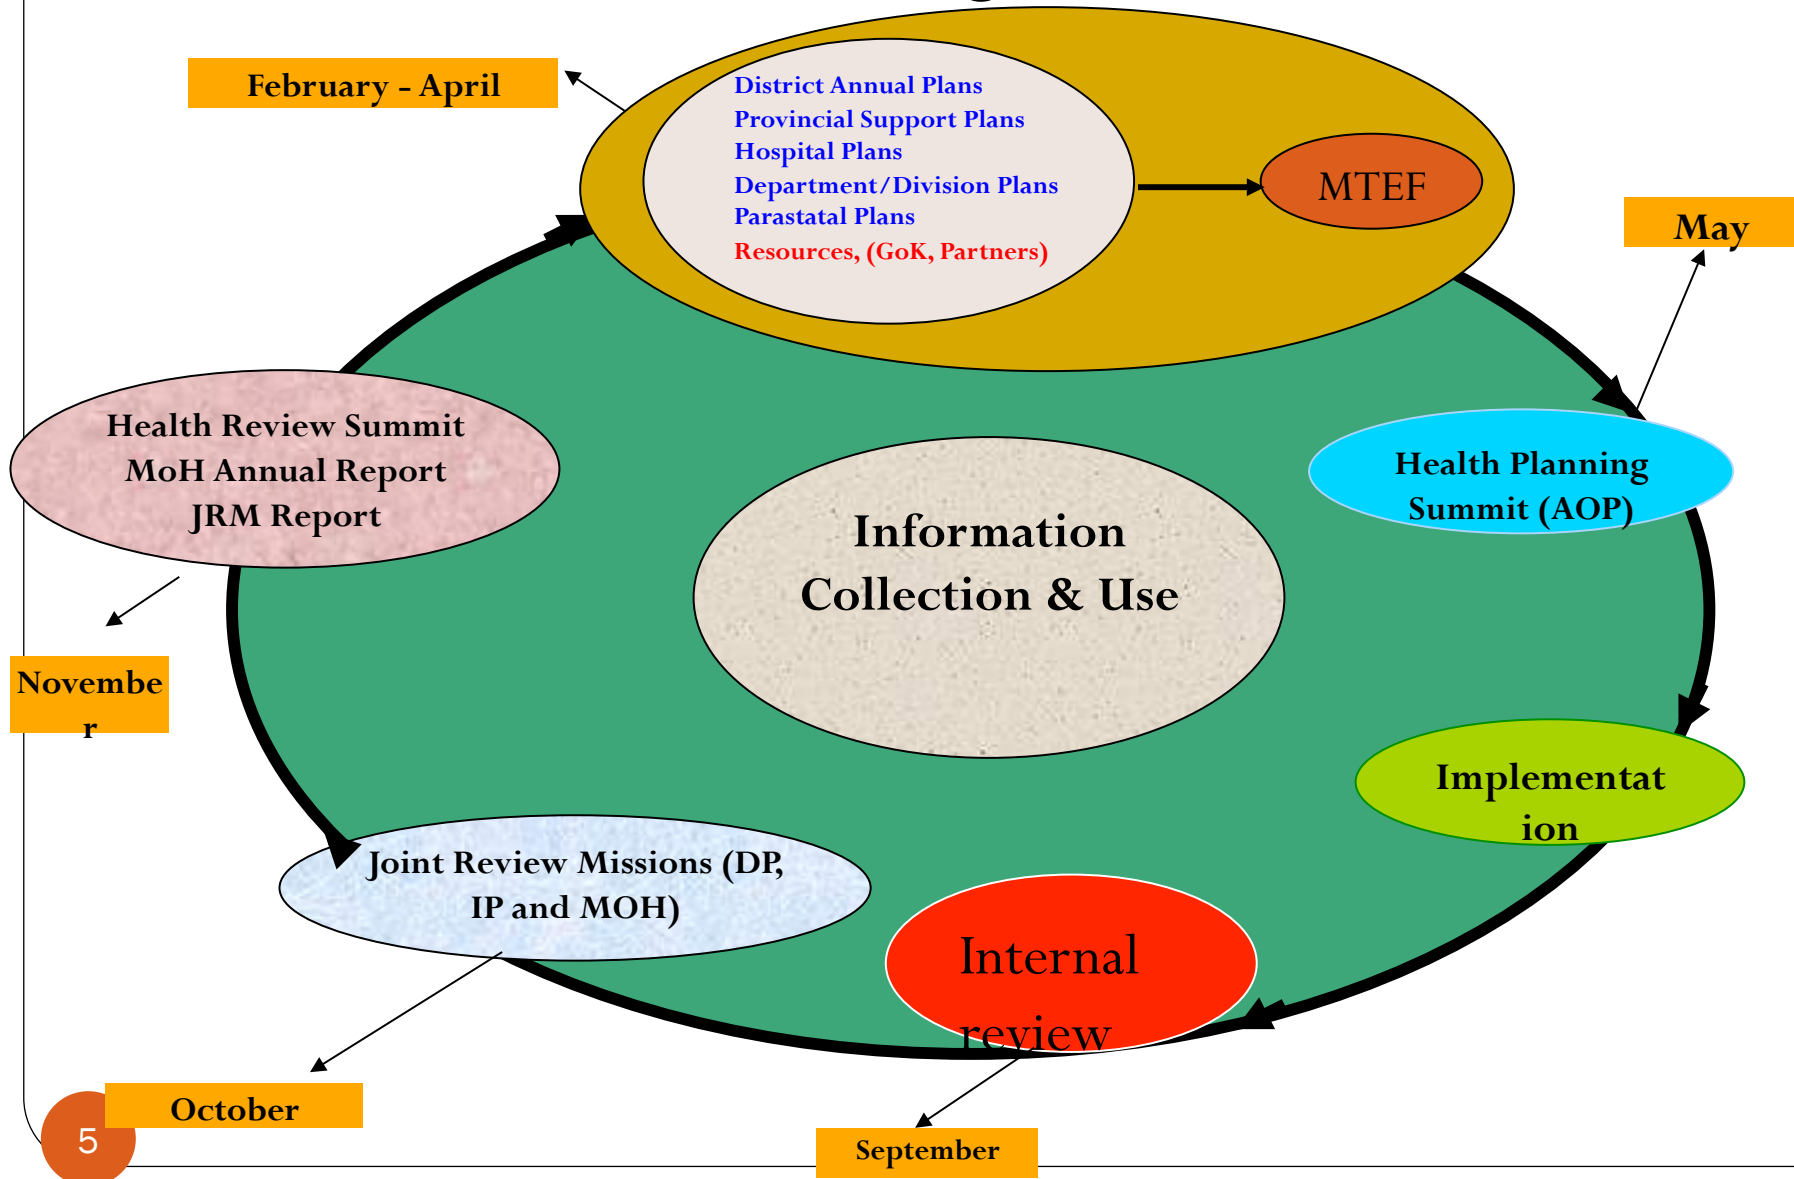

- Client and employee satisfaction

- Analysis of sector Partnership commitments (CoC)

Sector institutional arrangement for joint planning and monitoring mechanisms

Challenges

- Weak in-country monitoring and evaluation capacities
- Support instrument/ Programme/ project driven monitoring mechanisms
- One fit-it –all monitoring mechanism

Wayforward

- Enhanced dialogue among sector partners through strong country leadership and stewardship
- Adherence to Partnership commitments and principles
- Strengthening sector capacities for monitoring and evaluation systems

Thank you
