

# How good are our current strategies? Perspectives from Rwanda

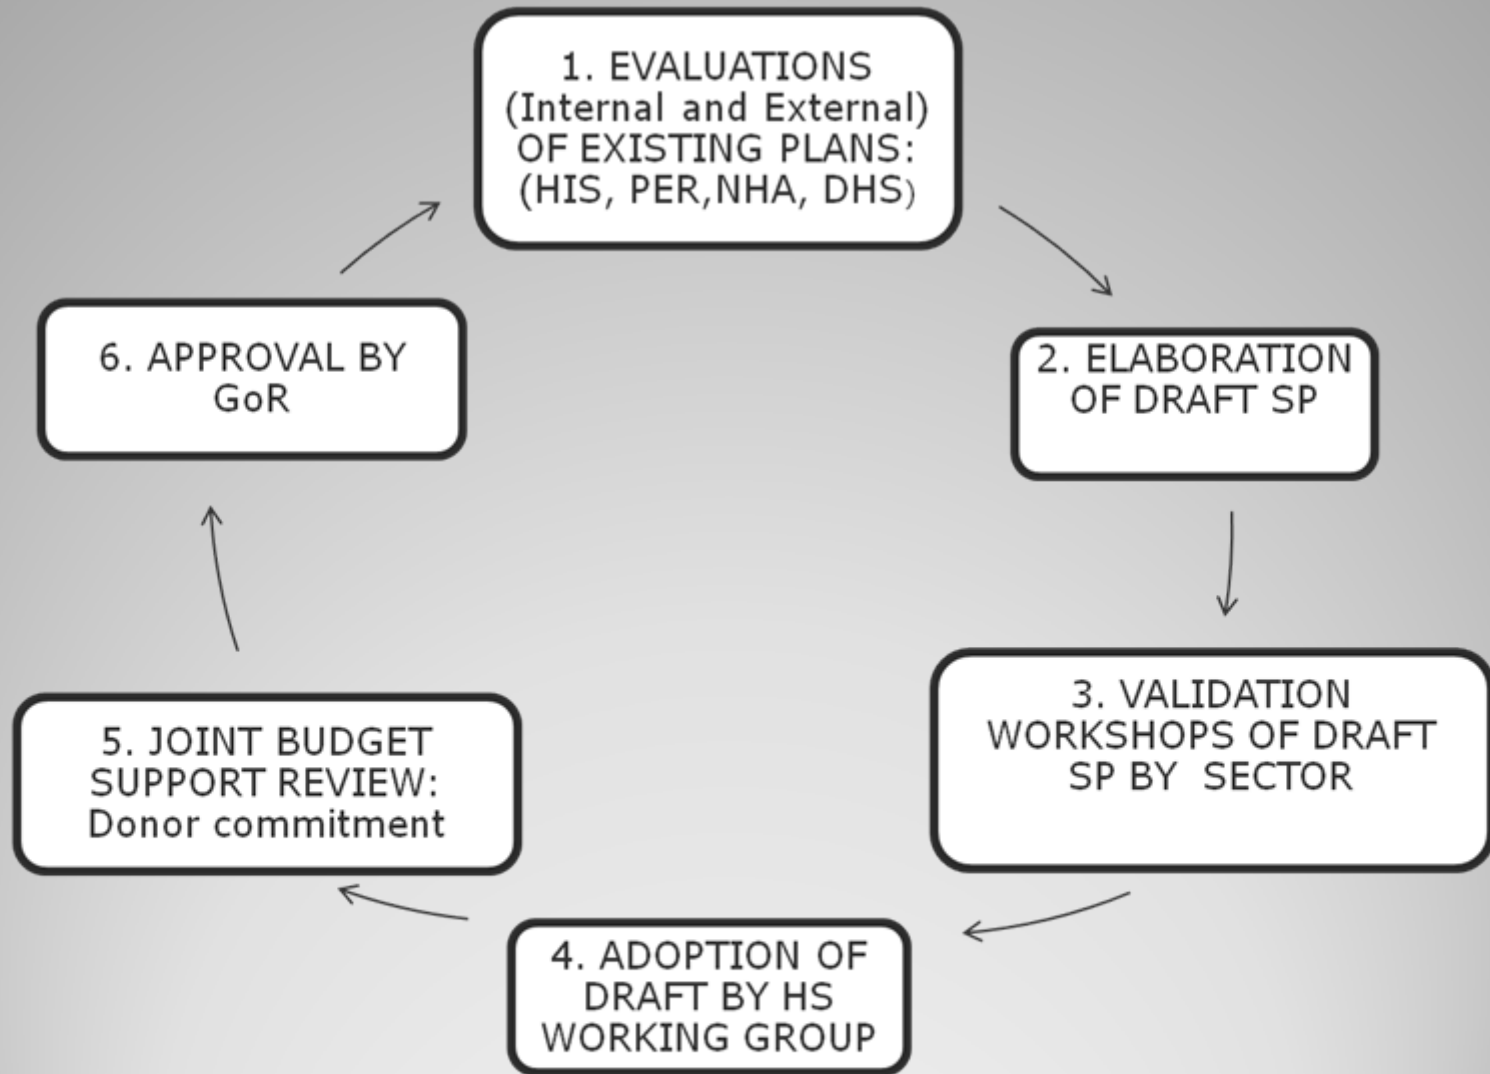

(IHP+ Bamako: 15 June 2009)

Stephen KARENGERA  
Director Policy and Planning  
Ministry of Health Rwanda

# PLANNING PROCESSES LINKAGES

# Planning Cycle

# CHALLENGES

1. Internal (Government):
  - Ensure a clear link between national plan, sub-sector plans and local government plans.
  - **Concerted effort for coordination and dialogue.**
2. Internal (private sector + civil society):
  - Reaching consensus on priorities (Ideology)
  - Capacity to engage and speak with one voice (pvt sector)
3. External: aligning Donor Earmark Funds to national priorities. (SWAp and IHP+)

1

To improve accessibility to, quality of and demand for Maternal Health, Family Plan., Rep. Health, Nutrition services

2

To consolidate, expand and improve services for the prevention of disease and promotion of health

3

To consolidate, expand and improve services for the treatment and control of disease

1

To strengthen the sector's institutional capacity

2

To increase the availability and quality of human resources for Health

3

To ensure financial accessibility to health services for all & sustainable & equitable financing of the health sector

4

To ensure geographical accessibility to health services for all

5

To ensure (universal) availability & rational use at all levels of quality drugs, vaccines & consumables

6

To ensure the highest attainable quality of health services at all levels

7

To strengthen Specialised Services, National Referral Hospitals and research capacity

Levels of Intervention

- Family-oriented community based services
- Population oriented schedulable services
- Individual oriented clinical services
