Providing for Health – MfDR Goal System – March 2009

Impact

Health Status | Client Satisfaction | **Poverty Reduction***

** reduction of catastrophic payments and impoverishment associated with obtaining health care (direct contribution to MDG 1)*

Non-health care determinants of health

System Outcome

System Quality : Effectiveness, Safety, Responsiveness, **Efficiency**, **Access**, **Equity** — *P4H focus* — **Social Health Protection**

System Output

Reform outputs | SWAp outputs | outputs of IHP+ and other initives

e.g. deliverables of national strategies and plans, such as better governance, service delivery, fair and equitable financing mechanisms, regulation and quality assurance, human resource management, health information systems

P4H Output**

PRIORITY

Social Health Protection incorporated/expanded in national health plans and programmes

Harmonisation and **alignment** of external assistance for SHP is enhanced

Utilisation of resources (e.g. SWAps) for equitable and sustainable SHP structures is increased and improved

Awareness and cross-country **learning** on SHP among countries, development partners and the public is increased

Capacity in partner countries for evidence-based decisions and strategic orientations in SHP is enhanced

(cross-cutting result)

P4H *is an evolving, continuously improving and growing partnership for SHP*

Process/Activities

- Support countries in the formulation of **policy options** and **national plans** in cooperation with other development partners
- Coordinated technical assistance and **joint missions** are facilitated by P4H (based on country needs/requests)
- Application of P4H tool for informed strategic decision making

- **Link with IHP+** and other SHP relevant initiatives
- **Identify complementarities** in multilateral and bilateral development cooperation.
- Establish **joint** sector programmes or partnerships
- careful **alignment** (timing and tailoring) of P4H support with country processes

- Cooperate with **global financing** institutions (e.g. BM Gates, GF, etc) and assist countries in **applying** for **funds**

- Countries asking for external support on SHP are successfully **linked** up to global health financing institutions as well as bi- and multilateral **donors**

- **Advocacy** and communication on SHP
- Experimentation and **learning** from experience, including M&E and use of performance assessment tools
- Experimentation of innovative **demand-side** approaches in SHP (e.g. cash transfers)

- **Technical support** for the implementation of national health financing and SHP strategies
- Establish functioning **networks** / dialogue / forum for **exchange** / international **conferences**
- Develop **Capacity Development** plans for SHP (application of P4H tool)

Phase 0 [start-up 2009]:
*- Establish **P4H coordination** mechanism;*
*- refine **P4H strategy**;*
*- develop P4H specific **analytic framework** and*
*- **P4H toolkit/instrument**;*
*- develop **communication strategy** and plan;*
– inform own structures about P4H;
*- refine **selection criteria** for partner countries; -*
*- **workplan**;*
*- establish P4H **expert pool**;*

**joint output of P4H partner countries and P4H partners
